

Hydraulic pipe bending machine : SB-38**Hydraulic pipe bending machine : SB-38**

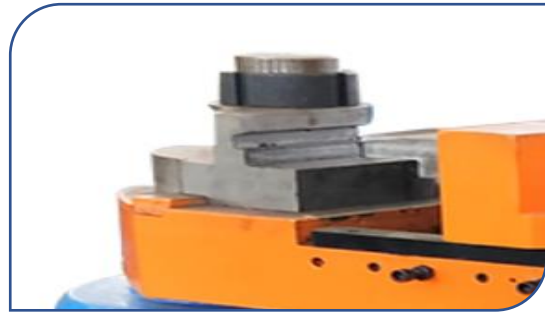

Structure type: Using boom pinch structure Hydraulic guide plate is used to assist the structure. The hydraulic system of the machine is equipped with a water cooling device to facilitate the user to control the oil temperature. The main drive uses the gear, cylinder and rack mechanism. The bending direction of the pipe is the top view, the hour hand is the direction of the bend.

Bending process: the equipment meets the requirements of the drawings provided. The quality of the product is not lower than the actual sample and the deformation of the bending part is not more than 5%. The mold is provided by the requirement proofing tube. The surface of the bent tube has no wrinkles. After bending, there are no grooves and pressure marks on the surface of the tube due to bending.

Hydraulic oil pipe clamp

Pipe holder

PLC Controller

Hydraulic motor

The bending is driven by a high efficiency hydraulic motor and precise bending angle.

Schneider Electric

Technical specifications

Model	Hydraulic pipe bending machine SB-38
Bending ability	10 -260 mm.
Degree of bending	190°
Mendre high effective distance	2200 mm.
Control system	NC
Pipe maximum bending elbow	16
Maximum storage portion	16*16
Motor power	4 Kw
Maximum hydraulic pressure	12 mpa
Capacity	110L
Dimensions	2600*600*1000mm.
Weight	750 Kg

Bending capacity : Round Pipe Square Tube Rectangular Tube Solid Round Tube Square Tube Solid Brass / Copper, Stainless Steel, Carbon Steel, Aluminum.

Application & Capability

Furniture, clothes rail, clothes rail, accessories in metal furniture, stainless steel chair, stainless steel furniture, handrail, stainless steel shoe rack, greenhouse, fence, fence, security, water pipe, automobile, hanging rail. Clothes, supermarket shelves, sports equipment, bicycles ,baby strollers, sharing bicycles, plastic racks, high-frequency welded pipes, floor fans, scaffolding, handrails, door handles, steel pipe ladders, folding ladders, water pipe fittings, apartment beds. , Steel bed, stainless steel bed, sanitary tub, mop rod, tent pipe, fishing rod, mosquito net, hanging pipe, curtain pipe, automobile exhaust pipe, medical equipment frame and so on.

Air conditioning duct

Road guardrail

Fitness Equipment

Automotive pipeline

Children's playground

Tricycle manufacturing
