

Hydraulic steel shearing machine 90 °

Hydraulic punching machine 40 degree /60 degree /90 degree.

- 1, can be equipped with a variety of molds, punching 45 degrees, 60 degrees, 90 degrees angle to change the mold.
- 2.Fast mold loading and unloading, low skill content, rookie start quickly, reduce labor costs and workers' labor intensity.
- 3.Compared with traditional drilling machines, the machine has fast drilling speed, no deformation, no burrs, low noise, accurate positioning, convenient operation, safety, energy saving and environmental protection. The parameters are accurate, and the interface is tight and seamless, especially the closed position of the arc point.

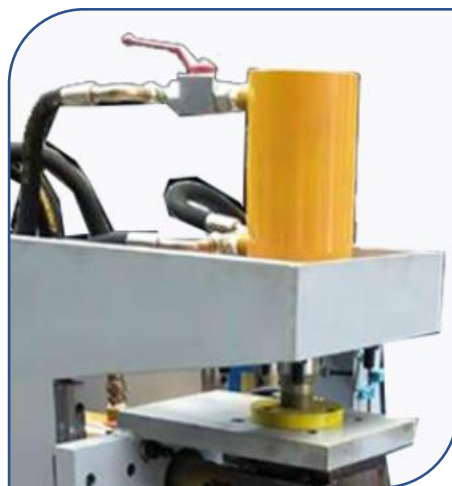

The machine can bend pipes of different sizes by changing the molds

Drill type 45 degrees 60 degrees angle 90.

It can be customized according to your requirements.

Pressing system to mold Drill down the workpiece

ELECTRICS CONTROL

Technical specifications

Model	LT-H90
Name	Hydraulic steel shearing machine
function	Folding angle 45 ° 60 ° 90 °
Power requirement	220V. / 380V.
Color	Blue
Speed	3600 R. / min
Warranty	1 Year
Power	7.5 KW
Weight	500 Kg.
Machine dimensions	1.7*0.8*1.2 M

Application & Capability

Widely used in door flowers, aluminum alloy doors and windows, stainless steel railing, security nets, fall guard rail, shelf, zinc steel fence, display stand, bathroom hardware, Drying racks, communication antenna racks, furniture, retractable doors, building accessories, greenhouses, municipal construction, sports equipment, automobiles, motorcycles, bicycles, stainless steel decoration products, angle steel, steel structure and perforation. Other pipes or profiles, arc drilling, shearing and fabrication.
