EXPECT SOMETHING SPECIAL.
HÄFELE’S QUALITY PHILOSOPHY.

In addition to design and function, reliable quality is one of the most important factors in the selection of furniture handles. However, depending on the application’s specifics the required standards can vary dramatically. Through over 90 years of experience we know these requirements very well. We incorporate this knowledge in our quality guidelines. Reliable quality – to suit everyone.
DESIGN
Our high demands start with the design of our handles. The desired special impression is only created when design and function work in harmony; allowing our handles to serve as inspiration for the design of exclusive furniture pieces.

PRODUCTION
Our expertise dictates the entire development and production process. This is where our comprehensive experience is applied, from material selection to tool making. Material, form and function become one to shape a unique product experience of German perfection.

TESTING
Quality measurement and control according to Häfele’s stringent quality guidelines. These standards are ensured by strict optical surface inspections and technical test for corrosion resistance, tensile strength etc.

Our high-quality handles meet expectations with their exclusive design and perfect function, as well as longevity. They are a lasting pleasure.
